

**HMI**  
INNOVATORS IN GLASS

## FRAMELESS | *Custom Shower Enclosures*

An HMI frameless shower is the gold standard in custom shower design. Virtually limitless in size and layout, creating your sanctuary space means looking at your bathroom through a new lens. With guidance from your glass professional, architect, designer and/or our in-house design & engineering experts, your dream shower is only steps away. Frameless custom showers fit beautifully into new construction projects, but are equally at home in bathroom renovations. Maximize space, open up site lines, honor windows and architectural details by designing for your space, not around it.
